**Date: 1/29/15 (Thurs) 6:30-9:00PM**  
**Dental Marketing; Dental Consulting**  
**Speaker: Robert Lowry; TBD**

Robert and his team will present on dental marketing to further build the practice, including website, social media, print, etc. Another group will present on dental consulting to make your practice more efficient on a day to day level.

**Date: 2/27/2015 (Fri) 7:00AM-1:00PM**  
**Immediate Implant Placement and Provisionalization in the Esthetic Zone**  
**Speaker: Dr. Joseph Kan, DDS, MS**

The course is designed to help the general practitioner and/or specialist to realize current concepts, techniques, and technologies in implant dentistry that allow predictable immediate placement and loading of dental implants. The presentation will outline patient selection, treatment planning, and decision making in the execution of immediately placed and loaded implants for consistent functioning and esthetic results.

**Date: 5/7/2015 (Thurs) 6:30-9:00PM**  
**Successful Bonded Restorations**  
**Speaker: Dr. Yumiko Amakawa, DDS, PhD**

Modern bonding technique as well as esthetic restorative materials have drastically changed how we treatment plan and restore teeth. To achieve naturally looking beautiful restorations, every step from diagnosis, preparation design, material selection to treatment sequence need to be orchestrated and carried out. Clinical cases will be presented with the following learning objectives.

**Date: 9/24/2015 (Thurs) 6:30-9:00PM**  
**Common Oral Lesions Every Dental Practitioner Should Know**  
**Speaker: Dr. Dolphine Oda, BDS, MSc**

This course will cover the most important and common oral diseases. It focuses on the detection of lesions in their early stages for optimum treatment results. Enthusiastic, informative and fun, the course will cover common diseases, uncommon but important diseases, and, most importantly, problem cases that can be avoided by careful examination and interpretation of the clinical data.

**Date: 11/19/2015 (Thurs) 6:30-9:00PM**  
**Comprehensive Interdisciplinary Treatment Planning**  
**Speakers: Dr. Ward Smalley, DDS, MSD**

Dentistry can be multidisciplinary or interdisciplinary and we should strive for the latter. Case presentations will be used to effectively demonstrate the power and possible final treatment outcomes when we work together as a team.
